VULCAN OPERA HOUSE

Betty Compson and George Hackathorne
in a scene from the Paramount Picture "The Little Minister"
To be repeated Thursday, August 3rd

LOCAL ITEMS

Grain rates from Calgary to Vancouver have been reduced from 31c a hundred pounds to 25c.

Mrs. H. Bishop, who has been visiting in the Carleton district for the past three weeks, returned to town on Monday.

Mr. A. Mutz and Misses Josie and Bertha Mutz, left this week by car for Blairmore and other towns throughout the Pass.

The returns of the Manitoba election were received in Vulcan by radio. We're there when it comes to wireless and things like that.

Mrs. W. M. Pratt received word on Monday of the death of her eldest daughter's husband, Mr. D. O. Trimmer, of Billings, Montana, who died on Sunday last.

Mr. E. Ceruton, of Calgary, will deliver addresses at the morning and evening services at the Union Church on Sunday next, and will also address the children at the Sunday school.

The combined choirs of the Union church will conduct a musical service in the Chautauqua tent on the evening of Sunday, August 6th. This will be the first Sunday after the return home of Rev. Mr. Brunton, who will deliver an address.

The Government Publicity Commissioner in Edmonton is broadcasting the fact that a party of ranchers from New Mexico are travelling by car through Alberta. These are the cars from so far that we mentioned last week as having passed through Vulcan. Since then they have again passed through here on their return journey.

One day lately, Mr. J. H. Cook drove a team into town and tied the horses at the C.P.R. depot while he was on business at the freight sheds. On the approach of a train one of the animals showed only slight signs of fright, reared up a little and fell over dead. It was rather an unusual incident, and the cause of death must have been heart failure.

Mr. Ober, who is one of our local wireless experts, reports that he has this week for the first time picked up radio messages from Regina, where a broadcasting station has just been established. Mr. Ober is in receipt of radio journals containing maps of the wireless towns in the west, and Vulcan is marked plain and large on all of these.

Talk about roses! Blake McCulloch brought us in a bouquet of these beautiful flowers that are the best that we have yet seen in this part of the country. They grow in profusion at his home north of Vulcan, and their beauty and perfume give to his western home an attractiveness that is uncommon hereabouts. We have shown the roses to all our neighbors and many others and they were a delight to everyone.

Wally Brailey, marimbaphone soloist, of Calgary, is a friend of The Advocate man, and when we were in the city lately said to us: "You're now down in Vulcan—that's the radio town; I am on The Herald program some time next week, so just listen for me." Sure enough, he was on Friday night, and his numbers came in in fine manner over the receiving set at the D. C. Jones drug store, as did also the other numbers on the program, which included several selections by the Elks saxophone septette. If there is anything good going Vulcan gets it.

There is a row of interesting pictures in the window of Spooner's furnishing store. They are photos of the Vulcan ball teams of the years that are past and of the team of the present team. In the oldest of the photos appears the picture of Frank Clark, the only one of the bunch that is now in Vulcan, and though his playing days are over his interest is not less and he sees all the games that are played within a reasonable radius. There is still another picture somewhere in town, older than the rest, and it is Tommy Lebow, who in the days that are gone played the great American game, but now limits his diversions to playing the less strenuous game of golf and blowing a horn in the band. If this picture can be discovered, it will be added to the display.

It was just as we had hoped. C. O. Prest, the Nevada aviator, reported as lost in a flight from Dawson City on his way to Siberia, has been found. Prest took out from Dawson City on Sunday a week ago and wandered for three days before a search party picked him up. When he encountered engine trouble, 30 minutes out from Eagle, he selected a landing place on a "Nigger-head-flat," and proceeded to inspect his machine. He looked up to find himself surrounded with caribou in a great herd. He tried to take off to find a less dangerous spot, but his biplane nosed into the soft ground, turned over and broke the propeller. By this time Prest was hungry, it seems, and he coolly shot a caribou with his 32 calibre revolver and butchered it with a pocket knife. Local interest in this unusual incident comes of the fact that this daring young fellow is well known in Vulcan.

LOCAL ITEMS

Constable Reid is at present on a two-weeks' vacation.

Born on July 19th to Mr. and Mrs. J. Vian, of Ensign, a son.

Born to Mr. and Mrs. Brown, of Ensign, on Thursday, July 20th, a daughter.

Mr. George Buck, who has been on a business trip to the East, returned home on Saturday.

Miss Ethel and Ella Hodge are at present spending their vacation with their parents at Granum.

Dr. and Mrs. Beddingfield and children were in town on Sunday and spent the day with friends.

Mr. Jack Wolfe and Mr. H. J. Mabey, who have been holidaying at Sylvan Lake, returned on Monday.

Mr. and Mrs. R. L. Elves and son, left on Thursday last for Banff where they will spend the next two weeks.

Mrs. T. Farrand and daughter May, who have been visiting with friends at Sylvan Lake, returned to town on Saturday evening.

Mr. O. L. McPherson, M.L.A., and Mr. D. H. Galbraith, M.L.A., are at present attending the special session of the Alberta Legislature.

Mr. and Mrs. F. M. Anderson, and two children, left by auto for a trip to Creston, B.C., on Monday. They were accompanied by Mr. George Staples.

The Nanton vs. Vulcan ball game which was to have been played on Tuesday evening, was cancelled owing to wet weather and will probably be played next week.

"The Little Minister," a picture recently shown at the Opera House, was so good that there is a demand for a second showing, and if it is possible, the picture will be repeated here.

Vulcan Citizen's Band is just now in big demand. They played an engagement at Lake McGregor last week. On Thursday they go to High River for the big U.F.A. picnic, and on August 9th they play at Nanton, and two days later at High River exhibition. They give to these events life and pleasure and to their own town splendid advertising. It is an organization worth while and worthy of support.

The baseball boys will be as busy as bees if they play all the games that are offered. Two were played last week, and one was billed for Tuesday night, but postponed on account of rain. They are in Barons for two games this week, and are wanted at Nanton on the 9th, and there are games for them at both Carmanray and High River on the 11th. And besides there are three or four league games within the next week or two, and a few exhibition games right here in Vulcan that the fans are expecting.

The picnic at Lake McGregor last week was a grand success, at least it looked that way to us. The lake, the grounds and the race track make it a great place for such an event. The treatment of patrons and visitors was a satisfaction and pleasure to both and a credit to the promoters. The thirty and the hungry could buy at a price that pleased, and everything was just right to make us want to go again. The Advocate regrets that it has not received a detailed report of the races and other many features, but it was a great picnic nevertheless, and we readily proclaim the big time we had out there, and everybody else looked happy and satisfied.

Though our ball team has been unlucky in the league, they have won the money in their games where there was money to win. The last of such games was at the union U.F.A. picnic at Lake McGregor, when they defeated Milo. Reg. Carruthers pitched his first game for Vulcan and struck out eighteen batters—enough to win several games—and still the other fellows got ten runs. It sure was a funny game. It looked at first as though Milo was only going to get one run, and then again it looked as though they might get the most. The game had thrills and all kinds of things, but it ended our way, and all is well.

Mr. Stewart, manager of the Bank of Commerce, took us up to the house the other day to see his garden. In it there are flowers of large variety and quantity, among which is one of particular interest and beauty, known as "Canterbury bells," getting its name from the shape of the flowers. In the garden there is also vegetables of many kinds, all giving evidence of care and attention. It is the kind of a garden that makes the gardener pleased and gives beauty to the town. We are lead to remark that one half of the town does not know what the other half has. There are other pretty spots in town, several of them, which we have been invited to visit and which will receive the mention they merit. Would not a little flower-show, conducted under the auspices of some local organization, be a pleasing and profitable demonstration of just what Vulcan has in flowers. We were in one place once where this was undertaken and it was a delightful revelation.

LOCAL ITEMS

Mr. J. H. McConkey, of Langdon, was a business visitor in town last Thursday.

Mr. Munn, of Calgary, spent the week-end in town the guest of Mr. George Biddle.

Mr. and Mrs. C. E. Henry returned on Monday from Calgary where they spent the week-end.

Miss E. McCliment has just recently joined the staff of the Government Telephone office here.

Miss Tingle, who has been spending a week's vacation at Sylvan Lake returned to town this week.

Miss Queenie Daines, left on Monday for Cardston where she will spend a week visiting with friends.

Mr. and Mrs. Billy Recor and Mr. M. Recor, motored to Lofond on Sunday and spent the day visiting with friends.

Mr. and Mrs. Dyce Allan and daughter motored to High River on Sunday and spent the day visiting with friends.

Miss Annie McKenna, of Calgary, arrived in town on Tuesday evening and will visit for a time with her sister, Mrs. T. Logan.

Mr. Ross Henderson returned to Calgary on Thursday last after spending a week's holiday in the district.

Mr. J. Turner and Master Cyril Martin, of Calgary, were visitors in town last week for a couple of days, the guests of Mr. and Mrs. Tommy Logan.

Who was the party in town, who had been given a present of a little bird, and thinking it to be a canary, went to the expense of buying a lovely cage and bird seed, and then later found out that it was only a little sparrow and that a joke had been played on them?

Messrs. Becker, Market, Cole, Carr, Seaman and George Seaman enjoyed another big fishing trip to Lake Newell. They report a big catch, the largest being caught by Mr. Cole, weighing over seven pounds, dressed. The weather was fine and some great reports was brought back of the lake and the number of fish being caught there.

The local ball team has now a string of three pitchers, namely, Willard Love, Reg. Carruthers and Jack Armistage, all of them good in the box and in the field. This will give strength to the team sufficient to make an interesting finish this season and give us good baseball entertainment. The two last named pitched games up the Crow's Nest at the week-end, one for Michel and the other for Fernie. Vulcan will be a real baseball town yet this season.

The Claresholm Derby was the feature of the racing events in connection with the Claresholm exhibition. This was won by Balesroch Fox, owned by J. R. Watt of Claresholm, and ridden by William Headley, a son of the minister of agriculture. Vulcan has particular interest in the event because of the fact that the winner was trained in Vulcan under the direction of our local veterinarian, Dr. Hughes. Lady Ribblesdale and Bow River are two other gallopers that he has trained here, and the string of three will be raced over the circuit recently formed by the new Southern Alberta racing association.

H. T. Steed, who resides just out of town, has at different times been the winner in the "missing letter" contest conducted by the Calgary Albertan. Besides finding the letters and arranging them to make the name of the firm, he draws a sketch or series of designs to illustrate the features of the business in which the firm is engaged. The Eau Claire Lumber Company is one instance. The design was in series, showing the trees in the forest, the logging operations, the sawing of lumber, and the completed house made of the material. The drawings are certainly fine and a real work of art.

The Advocate man was out to the Little Bow river for the first time on Sunday. And say, the "old swimmin' hole," of which we hear so much, has nothing on this place, for there they were, men, women and children, of all sizes, shapes and ages, disporting themselves in the water like a flock of frogs. There were picnic parties here and there and everywhere, there was the usual string of things hung on the lines and the bushes, and there was a camp or two in sight. There was the flat-bottomed boat upside-down and a spring-board. No wonder we have heard so much about this place. It's a great spot. Suggestions have been made for the building of dressing rooms and other conveniences. But what beats ducking into the bush to change your duds, and picking your steps along the path to give your feet the last dip before putting on your boots. These are the features which gave the "old swimmin' hole" its fame, and they have not lost their attractiveness. To Mr. Kennedy there is a deal of thanks due, for he is the owner of the premises, and by his generosity much pleasure is made possible.

ODD FELLOWS'

Basket Picnic

Oddfellows, Rebekahs and their friends are invited to attend a Picnic to be held at

High River

Wednesday, August 1st

GENERAL NEWS

The estimated yield of apples in the Okanagan Valley this year is 2,281,000 boxes.

There seems to be a bunch of liberty-loving Irishman who are determined that nobody shall take their way from them.

W. Sanford Evans and J. T. Haig, Conservatives, were elected in Winnipeg over proportional representation. The first count gave it to the Liberals.

The Alberta government has decided against giving aid to the Salvation Army scheme for bringing a number of women and children to Canada from Britain.

A party of ranchers from New Mexico travelling in cars, were visitors to the province during the past week or two. It is their intention to take up stock raising next year in the Telfordville district.

Ellis, the official hangman, is having marital troubles, his wife charging him with assault. Both agreed upon a separation, Ellis to pay his wife \$75 per month. Ellis is now on his way to Vancouver to execute three men.

Alex Cameron, superintendent of lands for the department of natural resources of the Canadian Pacific Railway, has been appointed Oriental agent for the company and will have his headquarters at Hong Kong.

The Editor of the Topeka State Journal has published portions of the Bible as a weekly serial which he claims is read with deep interest by subscribers, being more acceptable to readers than the present day sensational matter finding space in newspapers throughout the continent.

An insurance agent at Bassano was fined \$20.00 and cost of \$15.00 the other day for rebating commission on hail insurance. The case was prosecuted by the provincial police. This should be a good warning to agents writing hail business, as it has always been a practice of parties who have trouble in getting business otherwise.

BASEBALL LEAGUE

Champion Defeats Vulcan in Close Contest

It was real baseball that the boys played at Champion on Friday night, and they were not without friends at the game, for certainly the major portion of the spectators were from Vulcan. The only complaint was on the umpire, and at that no great kick is being made—that's not the way our fellows do things. Siler was on the mound for Champion and was going good, as was also his entire gang. Jack Armistage pitched for Vulcan and pitched well, and his helpers looked more like a ball team than they ever did before. There was much good ball and very few errors or mistakes—big league stuff some would call it. The play was tight and the score close, so much so that the spectators did not seem to be disposed to loosen up, and until the last man was down there was uncertainty as to the result. We would certainly like to have won, but it was the kind of a game that gets support and credit for the team even though they lose.

LOCAL ITEMS

There are few towns of this size, or any size, in Alberta or anywhere, that has a brass band like Vulcan, and the pleasure of a concert in the open, on Sunday night is the privilege of only a few, and is one that we enjoy and appreciate. The program on Sunday night was fine, and visitors in town from other and larger places have expressed their delight in the entertainment.

McHugh Bros., one of the oldest established ranching firms in Alberta, are planning on moving their herds from Gleichen to Montana. The reason given is that ranching conditions are better in Montana and the fear that United States may impose a prohibitive duty on Canadian export cattle. McHugh has been ranching around Gleichen for 45 years.

Another contribution of \$500 was made by C. C. Chumbley to the Alberta Government for an infringement of the Alberta Liquor Act. It appears that Mr. Chumbley was motoring on his way home from Calgary on Tuesday via the Davisburg road and he was there intercepted by Constable Miller of Okotoks who was on the look-out for him and in the motor was found several bottles of rye and brandy in a suit case. The case was heard in Okotoks before Justice of the Peace H. Bannister who imposed a fine of \$500 and costs or two months in jail. The trial took place on Wednesday, Chumbley pleading guilty.

THE VULCAN ADVOCATE

VULCAN, ALBERTA

NEWSPAPER COMMENT

Owen Sound Sun: No one's personal liberty has any right to interfere with the personal liberty of anyone else. This applies to all cases where the so-called liberty of one results in the enslavement or injury of another.

Minneapolis News: Two full-page magazine advertisements come to our attention. Both point the way to wealth—so they say. One, in the most reputable advertising medium in the country, advises you to "make the money you work for, work for you." The advertiser is the government. It offers you treasury securities. "In only five years your \$80 becomes \$100," the advertisement says. Not a very quick way to get rich, to be sure, but a good way to get richer surely. The other advertisement is in an oil journal. "Ten chances at a fortune," it promises, "our 50 per cent. dividend probes our plan to be a sure winner." Think of that—your \$80 becomes \$120 right off the bat—maybe! A good way to get poor quickly! Are you a saver or a sucker?

Toronto Telegram: A dam is to be built at the southern end of the Sea of Galilee. The dam is part of a storage reservoir for a power station to be established six miles down the River Jordan. Galilee and Jordan are great names that will always speak to unworldly souls seeking salvation. These names now speak to worldly minds seeking profit. Pinhas M. Rutenburg, a Russian engineer, is in New York inviting speculators to put their money into a \$5,000,000 flotation for a storage dam on the Sea of Galilee and a power station on the River Jordan, with sub-stations at Haifa, Jaffa and Jerusalem. Mr. Rutenburg is enfranchised with a monopoly on the distribution of electricity in Palestine and chartered with the exclusive right to develop power.

Financial Post: Before the budget debate wound up in the house of commons at Ottawa, Progressive members from western Canada had an opportunity to express their views on many national problems. Last Friday, for instance, was a field day for these farmer members. Half a dozen of them spoke at length and judging by the slim attendance in the house most of the other members thought they were talking through Hansard to their local newspapers and constituents. That was unfortunate, for there is need in eastern Canada of a real understanding of the problems of the west, just as there is need in the west for a broader appreciation of eastern Canada's aims and views. One cannot but be struck by the soundness of argument advanced by these level-headed western farmer members. Manufacturers are too apt to fear the farmer in politics. Experience in Ontario has proven that the farmer in politics exercises the same native shrewdness and judgment that characterizes his dealings back on the concession lines. More consideration of the study of their speeches in the house by those who condemn them unheard as Bolsheviks or as dangerous men would lead to closer bonds between east and west. One of the members during the debate told of loans that had been called by the banks, forcing western farmers to sell their stock at a loss at the same time that one firm of stock brokers had been loaned \$4,000,000 "for what might be termed gambling purposes." Such a complaint is not surprising under the circumstances and in view of the Merchants bank fiasco. When the western farmer demands a new system of credit in Canada those in charge of the superstructure of credit in Canada should be able to show him that the present system is all right or should make it right. If a bank which calls farm loans had been looted for stock market manipulation and the court can find no one guilty under the bank act, their demands for amendment of such an act must be expected.

London Chronicle: Get to, you city girls, and wash your faces! Many of you are young enough to save still something of the rose and white God made you, and the exquisite texture. Let the million little mouths of God's handiwork breathe once more. You shall have your reward in skin that will be rosy and white when you are old, on which will be written the tale of good deeds, of your smiles and your graciousness, for after 30 your face is your own to make beautiful for your autumn and your winter.

Baltimore Sun: The tight little island can never be conquered athletically so long as its cricketers put up an impregnable defense against the timid assaults of an occasional American cricket team. It will never dawn upon Britain's custom-worshipping minds in danger until some all-American cricketers win a few games at Lords. Much time must pass before America can handle the willow bat expertly, but until that day comes it can scarcely be expected that Great Britain will take baseball seriously—and only when each nation plays the national game of the other will the real struggle begin.

The Guardian: The Federal Council of the Churches of Christ in America, has a Commission on the Church and Social Service, and the Research Department of this Commission had been at work for some months prior to the coal strike, securing all available information as to the right and wrong of the coal situation. But so far the essential facts have not been secured without a Federal inquiry, and so the Commission sent a committee to Washington to urge Congress to take action to secure such an investigation as would place the public in possession of all essential facts. Naturally, this action was not very favorably regarded by some of the coal operators, and the Commission has now addressed a pastoral letter to the churches, explaining its reasons for seeking an investigation of the whole situation. This pastoral letter claims that the coal industry, as at present conducted, has violated the principles of brotherhood and service, and is now as a result "disorganized, wasteful of human life and economic goods, and is endangering the peace of the community." The Commission claims that in normal times the coal industry employs at least 100,000 more men than it can provide with regular work, and there are an excessive number of mines. Again in the bituminous coal fields, there has been a sudden abandonment of the machinery of conference and agreement, and as a result, these fields have been in a state of bitter conflict and virtually open war. For these reasons the Commission urges that there should be a searching Federal investigation of the whole situation. The general public cannot admit the right either of the miners or the operators, or of both, to deal with the situation as they please, for the public is very intimately concerned in the matter; and it seems clear that public policy demands either that the present contending parties adjust their differences and keep them adjusted, or else that the Government of the country take over the entire industry and operate it as a public utility.

Talk doesn't sound funny to silly people.

Free Press: The Crow's Nest Pass reduction means five cents a bushel on western wheat. With an average crop this means ten million dollars for the farmers who need it just as much as the railways.

New York Herald: Under a recent Virginia enactment drivers of all vehicles on approaching grade crossings of railways outside the corporate limits of any town, must come to a full stop "not less than ten feet nor more than one hundred feet from the nearest rail." The law carries a penalty of a \$10 fine for violation. The legend "Stop, Look, Listen," as a mere warning, however plainly displayed on sign board at grade crossings, is to a great extent a failure. A particularly appalling object lesson of the results of neglect to heed it may for a time increase cautiousness within the more or less restricted district in which live persons having first hand knowledge of it, but ever there it is quickly forgotten. Even the shocking number of such tragedies has little effect. The habit of recklessness soon resumes full sway. Indeed, with a certain type of driver, particularly of automobiles, the very danger itself seems to be a provocative to taking of life or death chances. Warnings, pleading, painstaking and widely extended educational efforts having apparently failed to make travellers careful at grade crossings. Virginia now proposes to see what the law can do. Policing every grade crossing in the State is, of course, out of the question. Where one grade crossing runner is caught and fined, a dozen will disregard the law with impunity. Perhaps if the punishment included a jail sentence, there might be some reform on the part of chance-takers. But even this is problematical. But the Virginia enactment is sound in principle. No doubt it will to some extent act as a check on recklessness. Were similar laws in force in all the States the total number of grade crossing killing and maimings would be reduced.

Owen Sound Sun-Times: Progress of Rural life, like other progress, must come from without. The "back to the farm" slogan, so often heard, is more or less a cry from another direction. It is designed as a relief to the overloaded industries of the cities. It throws out a request for the country to provide sustenance for people in temporary distress. That is not the way to build up a strong rural life. "The real country-life movement," says G. W. Plake, in a study of country life opportunity, "is a campaign for rural progress conducted mainly by rural people, not a paternalistic plan on the part of city folk for rural people, not a paternalistic plan on the part of city folk for rural redemption." The contention is that rural civilization should become just as effective and satisfying to young life as urban. The urban civilization has the start of this matter, says the Winnipeg Free Press. The social trend has been in that direction. The country gravitates into the adjacent villages and towns; the towns into the cities. Men like to follow the crowd. That, it will be easily discerned, is poor business, unless there is some higher motive than the simple desire to go where the crowd is. In the more mature and experienced social thought of today the true method of rural development is bound to be discerned. The country residents must help themselves. They must work out their own salvation to a large extent. Those who go among them as teachers and leaders of various professions must become rurally-minded in their interest and not look upon country life as a makeshift or a "stepping stone," to something else, but as life's calling, worthy of the best service.

Sunday is the golden clasp that binds together the volume of the week.

Tell the untruth recklessly and be unpopular, tell the truth and be equally so.

Any man may forget to wind his watch but the flight of time goes on just the same.

A scrap of paper nearly wrecked civilization and unless we are all very careful a flood of paper money may yet finish the job.

COMMUNICATION

Editor of Advocate:
Knowing that cutworms worked damage to some extent this past season in your district, and appreciating the value of the press, I believe that a note now in your paper on this menace would be very timely.

Those who have studied insect life advise leaving the fallow ground unstirred during the month of August and the first half of September, the reason given for this is that the slightly crusted surface does not afford suitable shelter for the flying moth of cutworm to lay its eggs, it follows that if the eggs are not laid the hatch does not take place in this non-infested area, hence cutworms are not present in the succeeding crop.

In my observations during the past year this theory has been peculiarly born out in practice.

The obvious and immediate thing to do with fallow land in these remaining days of July then is to cultivate so that weed growth is effectively knocked in order that the fallow field may remain reasonably clean during this untouched period.

My work as supervisor of illustration stations in Alberta (one of which has been started in your locality I.e. on farm of Mr. Cook) leads me to take the liberty of calling your attention to this question.

Yours Truly,
R. E. EVEREST,
Exp. Farm, Lethbridge.

Headquarters for PRESERVING FRUITS

We are handling large quantities of all Preserving Fruits direct from the growers. By doing so, we are able to give you No. 1 Fresh Stock at the list price

Raspberries will be over this week. Cherries, Royal Anns and Blacks, finish this week. Would advise phoning in your order for these commodities, if you wish to secure them.

Sour Cherries, Olivettes and Morellos, on this and next week.

Loganberries and Blueberries are now at their best re price and quality.

For this week-end we will have a large assortment of Choice Locally Killed Meats. Beef, Pork, Veal, Lamb and Spring Chicken.

Our Locally Made Cheese is a treat. Try a pound.

DOMINION CHAUTAUQUA COMING

Excellent Program for the Six Days of Entertainment and Amusement—Many Novel and Original Features are Promised this Season.

Each year the query comes to the newspapermen and committeemen "What is the Chautauqua Program like this year?" Frankly, it appears to be the strongest that the Dominion Chautauqua has yet built—well balanced and complete. We are giving, in order of their appearance on the program, a short description of the various numbers.

The entertainment of the first afternoon and the prelude of the evening is presented by the All Sisters Saxophone Quartet. The music of the "wailing saxophone" has become more popular than the one time Hawaiian music. These ladies play on the soprano, alto, tenor and bass saxophones. Their program is composed of classical and popular selections and is interspersed with vocal and instrumental combinations and a "play-let".

The lecturer of the first day is T. Dinmore Upton. He is aptly nicknamed "The Friend of all Kids". His desire is to impart to the kiddies something which will make them "Play the Game". He served during the war as a recreational director with the rank of Captain. For years he has been the supervisor of municipal playgrounds in several large cities. His New Zealand and Australian Chautauqua tour was an unparalleled success and the people of the Hamilton district called him back to assist them in raising \$10,000 for municipal playgrounds. His lecture "Re-Creation thru Recreation" will leave a lasting impression on young and old. Every boy, every girl, every young man, every young woman, every one interested in young people should hear "Dinmore Upton".

Hutcheon McDonald and his quartet, The Adanacs from Toronto, will be heard twice the second day. This is Scotch day, for the quartet wears the kilts. We hear much said these days about jazz supplanting the better music. This quartet is in itself a contradiction of this fallacious assumption. They create an appreciation of the classical type of music and their selections bring out splendid harmony with four voices blending as one.

The lecturer of the second day is Herbert Leon Cope, the humorist. Cope is the "man who came back." He says, "Take it from me, fellows, it pays to be clean. John Barleycorn's a poor bunkie. I know, for I've practiced at the bar." He is a humorist lecturer with a serious purpose back of every smile. This man who has seen life—who knows that all is not gold that glitters; who has eaten of the husks with the prodigal—has turned his humor to point an everlasting truth.

The third day is music day and will be long remembered as such. The Eiler-Willoughby Ladies' Orchestra, which was an unparalleled success on the Eastern Six-Day circuit of the Dominion Chautauquas, is returning to this circuit. The orchestra is led by Patricia Eiler, a finished artist on the violin, with many seasons experience. Miss Willoughby has the distinction of being one of the very few lady trap drummers on the platform today. In the evening of this day, Fenwick Newell, Canadian Lyric tenor, will appear. Newell has a remarkable voice and splendid stage presence and personality.

The lecture on this day will be in the afternoon following a prelude by the orchestra. The lecturer is Alexander Tomson, of London, England. His subject is, "Present day Problems of Self-Government within the British Empire." He is in close touch with the affairs of the Empire and will deliver a clean cut analysis of the situation facing the empire today. He does not attempt to solve the problems but merely points out the details which confront those who are solving them.

On the fourth day the preludes are given by Emory Parnell, the "One-Man Band". And he is a whole band in himself. This versatile entertainer plays five instruments at one and the same time. He is also a character artist of merit and possesses a baritone voice of rare qualities. The "biggest little company on the platform" is the nickname he has acquired. In the afternoon W. H. Stout will deliver his lecture, "Seeing Life Whole." Mr. Stout is a student and thinker and is the possessor of one of the largest and most complete libraries owned by any individual. He was recently honored by the presidency of the International Chautauqua Association. His lecture, will be an inspirational and educational treat. In the evening Moritz G. Hindus, a Russian author, will deliver his lecture "Storm Tossed Russia". Mr. Hindus was born a Russian peasant and received his elementary education in Russian schools but seeing the avenues to higher education blocked, he came to America and was graduated from one of the big universities. He draws a clear concise picture of the conditions in Russia.

The fifth evening, The Reed Metropolitan Players take the stage with the noted English Comedy, "Mrs. Temple's Telegram". The play was originally produced at the Oxford Theatre, London, England, where it enjoyed a run of one year. After touring the smaller cities of England, and everywhere receiving the highest praise of both press and public, the

management brought the production to America. At the Garden Theatre, New York City, "Mrs. Temple's Telegram" had one of the longest Broadway showings on record, remaining at this playhouse one hundred and ninety three nights without interruption. This is the play in which Miss Marie Tempest accomplished her first great success. It is one of the most humorous on the boards.

The sixth day is indeed a novel one. In the afternoon Chief Strongheart, gives a graphic account of the red man, in "From Peace Pipe to War Trail and Back Again". He is a direct descendant of Chief Standing Rock, who aided Chief Sitting Bull in defeating General Custer in "Custer's last stand". He appears in full chief's dress costume.

Then the grand closing entertainment by Davis, Master Magician, "The Man Who Mystifies". Davis carries an elaborate stage setting and one assistant. Young and old will be fighting for front seats on this night. Don't bring your canaries or rabbits if you don't want Davis to turn them into guinea pigs.

FREIGHT RATE DOWN

The Crow's Nest Reduction Means About \$15,000,000 to the Prairie Provinces

A summary of the reductions in freight rates provided for by the dominion parliament and dominion railway commission has been made by Alfred Chard, Freight Supervisor of the provincial government, for the information of farmers and others. The summary is as follows:

(1) Reductions on grain to Fort William and Port Arthur from points west, meaning practically a 10 cent per 100 lbs. reduction from all Alberta points.

(2) Seven and a half (7½%) reduction in Eastern and Western Canada on basic commodities; namely, forest products, building material, brick, cement, lime and plaster, potatoes, fertilizers (other than chemicals) ores, pig iron, blooms, billets, wire rods and scrap iron. In cases where above commodities have benefited by decreases, not amounting to 7½% they shall be reduced to that point, but if they have been previously reduced below 7½% they will remain as they are at present.

On some of the commodities and in certain directions this means that no reduction will be made and in other cases that the reduction will be less than 7½%.

For example, there will be no reduction in rates on crushed stone, gravel and sand, or cordwood as they are now back to level in effect September 12th, 1920. The rates on lumber from the coast to Eastern Canada will not be reduced, as they are below the new level established.

(3) Coal other than anthracite, and coal from the head of the Lakes westward, increases granted in September 1920, to be rescinded. These increases were as follows: Rates 0 to 80 cents per ton, 10 cents; rates 80 to 150 cents per ton, 15 cents; rates over 150 cents per ton, 20 cents. Above means coal rates are back to August 1918, increase which had a maximum of 50 cents per ton increase.

(4) Mountain differential reduced from 1½ miles on prairie to 1 mile Pacific standard or 30% higher to 1½ miles on prairie to 1 mile Pacific standard or 15% higher.

This does not affect rates on grain to the Coast for export which will remain as at present 31 cents per cwt. against 26 cents to Fort William from Edmonton, but will reduce the domestic grain rates from Edmonton to coast points from 46 cents to 38 or 39 cents per 100 lbs.

(5) Schedule "A" rates or town distributing rates applicable from all Ontario centres extended to apply from Sudbury to Sault Ste. Marie.

(6) The 20% increase allowed excess baggage effective September 13, 1920, has been removed. All reductions other than eastbound grain which is effective July 8th, to be effective August 1st, 1922.

The commission estimate the reduction will mean about eleven million less earnings for Canadian Pacific Railway. Would affect Canadian National Railway to about same extent.

The Crows Nest reduction means about fifteen millions to the Prairie Provinces.

TWO-DOLLAR WHEAT

A profitable market for this year's wheat crop is in prospect, according to expert advice received by the department of trade and commerce. European stocks are getting low. In a letter to the department, one wheat exporting house expresses the opinion that there would be two dollar wheat this year if the ordinary law of supply and demand were not influenced so much by adverse financial conditions. On this account, the prevailing price is problematical, though it is expected to be in advance of last year. Purchases in Europe, according to advices are likely to be gradual instead of the crop being marketed in huge consignments.

Face to face the truth comes out.

POTATO BUGS

Up to the present this district has been practically immune from the potato bug pest, but we are informed that in several potato patches the bug has put in an appearance and there has been no apparent attempt to destroy them. This is very unfortunate for if the potato bug ever gets the ascendancy then for all time we will be troubled with them. There should be concerted action and all should thoroughly examine their patches and gather the bugs in a pail and saturate them with coal oil which will destroy them. Down east potato growers spray the vines with a solution of paris green with splendid effect, and we would suggest either of the two above ways to get rid of this pest. But it is necessary to fight them now and prompt action is advised.

The Ads in The Advocate Get Good Results. Just Try One

THE VULCAN ADVOCATE Trade-at-Home Campaign

Buyer Protected by Advertising

Time was when advertising did not occupy the place in the world of trade that it does today. It has not been so very many years ago that the people were suspicious of advertising. They were inclined to believe that the merchant was trying to "fool" them with his advertising, that he exaggerated the value of the merchandise he advertised and took that method of trying to get them to buy goods that he could not sell by the old established methods of merchandising.

Those days are gone. The public now realizes that it is the greatest beneficiary of advertising.

Advertising has done more in a decade to establish certain standards in merchandise than could have been accomplished in a hundred years by any other agency. The manufacturer who a few years ago merely made and sold clothes now makes and sells the Blank brand of clothes. The man who formerly just made hats now makes Blank's hats. And so it is with everything that one buys today. The manufacturer, by his advertising, has built up his business around a trade name and if he is to continue in business he must protect that trade name by maintaining such a high standard of quality that people when they buy his products will know just what they are getting. The consumer, when he goes into a store today, does not buy merchandise blindly, with the HOPE that it will prove to be worth the money. He buys standard goods that bear the trade-mark of the manufacturer and that are backed by the reputation not only of the merchant who sells them but the manufacturer who makes them. This has been brought about by advertising.

NO REPUTATION TO PROTECT

All this applies to the retail merchants as a class but it does not apply to the mail order business. The man or woman who buys goods from a catalogue house is not protected by the manufacturer of the goods, for the reason that most manufacturers who sell goods to the mail order houses do not place their names upon the goods and therefore have no reputation to protect.

The great majority of articles listed and illustrated in the mail order catalogues are included in what is known among manufacturers as "stencil" stuff.

"Service Is Our Middle Name"

ALBERTA BULLETIN

Issued Weekly by the Government
Publicity Commissioner

Hon. Geo. Hoadley, Minister of Agriculture, and S. G. Carlyle, Live Stock Commissioner, have returned from the States and Eastern Canada. During his trip to Ottawa Mr. Hoadley took up matters of importance with the dominion government, including the securing of a market for Alberta rye, grading of hogs, and the question of letting down the bars by the U. S. for the export of western grassed cattle into the States. The question of remitting sales tax on 25 carloads of arsenic brought in by the Alberta Government from the U.S. for grasshopper bait, was also taken up. Mr. Hoadley had satisfactory interviews on these questions.

After a motor journey of 6,482 miles from Miami, Florida, W. D. Beidman, accompanied by his wife, is en route for the Peace River country where he will engage in ranching.

Authorization has been given by Hon. R. G. Reid Minister of Health, for the formation of the new municipal hospital district of Athabasca, and on Wednesday of this week, the provisional board of the district is holding a meeting to prepare a hospital scheme which will be voted upon later. The new district will include the town of Athabasca, and the Municipal Districts Nos. 637, 638, 668, 667, 696, 697, 727, 728. The Victorian Order of Nurses of Athabasca have offered to lease to the new hospital board the present hospital building at Athabasca, at \$1 a year for 10 years, provided the building is used for hospital purposes under the provisions of The Municipal Hospital Act.

There are about forty employees of the government at the present time who have reached the age of retirement under the new superannuation act which is now in effect and which provides a fund for annuities for civil servants after retirement. However, the act provides that the government may keep on any of these employees if so desired, in the interests of efficiency, and this is likely to be done in the case of several. The employees recently suspended from service at the land titles offices of Calgary and Edmonton will also come under the provisions of this act, and will be permanently retired under the term of the pension scheme. The minimum pension to be paid under the scheme is \$20.00 a month.

Without a dissenting voice farmers of the New West Irrigation district, east of Retlaw, voted to create the district and take water from the Canada Land and Irrigation Co. at a cost which has been estimated at \$45 to \$50 per acre. The following trustees were elected by acclamation: Charles W. Grey, Charles Waterberg, and Percy Love. The area in the district will be about 4,700 irrigable acres, and every effort is to be put forth to have the construction work done this summer in order that the water may be available for the land next season.

Five or six thousand acres in the Mountain View and Caldwell districts southwest of Cardston, will be brought under irrigation within the next couple of years without costing the government a cent either directly or by indirect aid in guaranteeing the bonds if the government will only give the water rights. This is the plan of residents of these districts.

Over 600 teachers from all parts of the province are attending the annual summer school now in progress at the university, under the auspices of the provincial department of education, and under the supervision of G. F. McNally, supervisor of schools.

A special session of the Alberta Legislature is in progress this week to give effect to legislation which will bring into being, in accordance with recent dominion legislation, a wheat board for the handling of the wheat marketing for Alberta this year. Similar legislation is to be passed by Saskatchewan, and, it is anticipated, also by Manitoba. Several features of the natural question in the province may also come up for consideration at the special session, which is expected to last not more than ten days or two weeks.

A neat pamphlet on municipal hospitals has been issued by the Health Department.

During the past week, the provincial cabinet had discussions with Hon. Charles Stewart, Dominion Minister of the Interior, on a co-operative immigration policy. It has been decided that the government will co-operate in a new scheme which will provide for the following up of settlers after they reach the province. It is the idea that a board composed of representatives of the provinces and the dominion will be appointed to supervise the operation of the scheme. Alberta will have two representatives of this board.

It is proposed to construct a hydro-electric plant on the Bow River, east of the City, to consist of four dams, the first of which will cost half a million dollars. The project is that of the Alberta Hydro-Electric Company Ltd., of Calgary.

Proposals to utilize the present buildings of the Gleichen Agricultural School, which is being closed, for an industrial home for boys, are now being considered by the provincial government, and it is likely a decision will be made along this line.

During the recent exhibitions at Calgary and Edmonton, butter made in Alberta captured a great many of the prizes offered. The butter at Calgary, exhibited by various producers in the province, was judged by Commissioner Gibson, Dairy Commissioner of Manitoba who said that unquestionably Alberta butter was the finest in all Canada.

R. C. Harvey, who successfully carried on the novel venture of feeding sheep on grain screenings at Fort William last year, is now making preparations for continuing this project on a larger scale this winter, and will in all probability bring 50,000 sheep from his Alberta ranches to the Fort William elevators.

A scrap of paper nearly wrecked civilization and unless we are all very careful a flood of paper money may yet finish the job.

KIRKCALDY NEWS

Everybody is invited to come to Kirkcaldy on Tuesday, August 1st. There will be a ball game at one thirty and another one at six o'clock between Vulcan and Kirkcaldy. Races for old and young lean and fat, and lots of sport for everybody. Refreshments will be sold on the grounds. Admission free. Junior U. F. A. which was recently organized at Kirkcaldy, will have pop-corn and candy for all, from which they hope to get funds to carry on their work. Dance in the evening. Baseball park back of elevators. Come and bring your friends.

BRANT NEWS

Mr. L. Clayton is visiting at the Green ranch.
Mr. B. Redfern of Calgary is bar-baring in Brant at present.
Rev. Mr. J. Fawcett was a Friday caller at the D. McDonald home.
When the boss gets back from his vacation he finds everyone rested.
Mr. A. Fleebott and son Laurence of Calgary, motored to Brant Sunday.

Messrs. Carl Bahrke and Floyd Swartz motored to Calgary Friday.
Mrs. Joe Heckle spent Sunday at the home of Mr. and Mrs. John Eversman.

Mrs. Frank Heckle was a Friday afternoon caller at the home of Mrs. L. J. St. Clair.
Mr. and Mrs. J. Kelly has as their guest their niece Miss Aileen McCarthy of Calgary.

Miss Jennie Leach was a Wednesday evening caller at the home of Mrs. D. Burwash.

Mr. Neil McColmen who is working near Vulcan, is spending today, Monday, with his family.

Mr. L. J. St. Clair and F. S. Heckle are doing some fine work grading the roads south-west of Brant.

Mr. and Mrs. D. Harper and son Ernest left Sunday for a few days camping trip in the foothills.

Miss Mary McFadden of near Ensign was a Sunday caller at the home of Mr. and Mrs. Harry Christiansen.

Mrs. Jos. Heckle and Mrs. John Eversman were Wednesday evening callers at the home of Mrs. K. Bate-man.

Messrs. R. Parker, T. J. Parker and son John, also Mrs. D. Phillips and baby, returned from the foothills last Tuesday.

Mr. and Mrs. Carl Bahrke and family, also Mr. and Mrs. Ben Holden and family were Sunday visitors at the little Bow.

Mr. and Mrs. McNeil and little daughters, motored to Granum to spend Sunday with Mrs. McNeil parents, Mr. and Mrs. Blair.

Miss Louise St. Clair and her grandmother, Madam M. St. Clair, were out driving. Louise showing her grandmother the beauties of Sunny Alberta.

Over 400 railway passenger agents from all over the continent will hold sessions in Alberta September 12 and 13, at Calgary, Banff and Lake Louise.

Master Claire Thomas has accepted a position with Bert Larsen pulling stink weeds as Bert has taken a contract to pull all there is in the field of N. P. Larsen.

Mr. and Mrs. J. Edwards and little son Jack, also friends motored from Chancellors to visit with Mrs. Edwards' parents, Mr. and Mrs. John Eversman, on Sunday.

Harry Christenson and family have moved back to their farm south-west of Brant, after several weeks stay north-east of Brant, where Harry has been engaged in plowing.

Mr. and Mrs. Archie White and family motored over from Nanton on Sunday and are visiting with G. B. McKay and family. Mr. White is a brother of Mrs. McKay.

Church service at the M. E. church was largely attended on Sunday evening. The special song selections was much appreciated by all present.

Mr. and Mrs. Thos. Johns and daughter Dorothy, also Mrs. P. Ford, Mr. Ira Olsen, Sibine Olsen, Darce Olsen, Henry Olsen and Edward Olsen returned Sunday from Waterton Lakes where they had been camping the past week.

The dance on Thursday, July 20, was not a success as had been expected. It don't seem that the people are dance hungry this time of the year. Never the less all present seemed to have a fine time. The U.F.A. should try their luck.

Mr. and Mrs. Jay Green, Mr. and Mrs. R. Pettifer, Mr. and Mrs. L. Wilkenson, Misses Agnes and Muriel Holden, Edna Green, also Messrs. Geo. Green, Leslie Clayton and Hugh Carey left Sunday for Black Diamond on a camping trip.

Master Lee St. Clair and Delbert and Norman Thomas drove to the Hawk eye ranch to fish. We think they did well, they caught two fish. But the boys felt more than repaid as they were invited to take dinner at the hospitable home of Mr. John Eversman, and the boys are all anxious to go back again.

RECKLESS

Sam sold Mose a mule. A few days later Mose told Sam the mule was blind.

"What makes yo' think dat mule is blind?"

"Why, I turned him loose in a field and he ran right into a tree."

"Mose, dat mule ain't blind. He just don't give a dern."

RED CROSS NEWS

Mr. and Mrs. W. G. Peterson and children, left for Sylvan Lake the 14th inst. to spend a couple of weeks.

Mr. and Mrs. J. W. McCrae, Mrs. Ben Graham and children, Dale, Russell and Harry, started Friday last for the north country to visit Mr. and Mrs. Clifford Wheeler.

Mrs. Walter Dexter is visiting friends in Calgary.

Miss Effie Ward arrived last Thursday from Nebraska to visit her sister, Mrs. C. H. Kelly.

Mrs. W. Perkins and children Isabel and George, spent last week visiting Mrs. Ben Graham and Mrs. A. C. Bancroft.

Mrs. J. D. Murdock and small son, left for their home in Calgary, after visiting Red Cross friends the past two weeks.

It was a great day at Mrs. Morris Stager's Wednesday, Institute day. Between seventy and eighty children were there. Ice cream and cake, pop corn and peanuts disappeared as if by magic till every child looked satisfied. Then they had their pictures taken and played games till time to go home, which came all too soon. Grown-ups also had a treat in the shape of delicious strawberries grown on the Stager farm, which shows what can be done in Alberta with care and perseverance. Mrs. Stager gave an interesting talk on berry culture, showing her fine bushes of many kinds.

Miss Annie Dunham and small nephew Master Claire, of Hanna, are visiting Miss Dunham's parent's Mr. and Mrs. M. C. Dunham.

Mr. Cook of Vulcan, conducted the service at the Red Cross School house on Sunday. Mr. Duncan preached at the morning and evening services at Vulcan in the absence of Rev. Mr. Brunton.

The Sunday school will go to High River to have their Annual Picnic Thursday, August 3rd. The Red Cross baseball team intend to play a game with High River on that day.

Mr. Sam Nafzieker was a High River visitor on business, last week. Mr. C. H. Kelley left for the foothills on Saturday last to look after his stock pasturing there.

The following is the percentage made by the Red Cross school children in their final examinations. All having made the necessary 50% to pass to the next grade, except one, which is a very good showing for both pupils and teacher. Willard can do other things besides play ball.

Grade VII: Grace Dunham 71, Pearl Fulton 67, Eleanor Rushfeldt 62, Mary Fulton 51, Arnold Rushfeldt 51. Grade VI: Bert Dunham 65, Eva Love 57, George Fulton 44. Grade V: Ina Love 66, Thora Snow 65, Louvercia Woodman 59, Charlie Fulton 59. Grade IV: Beryl Doane 61, Una Love 58, Addie Woodman 55, Cora Love 51, Viola Stager 51. Grade III: Arlo Doane 70. Grade II: Clay Snow 67, Norman Love 66, Belma Eamor 63. Grade I: Gerald Kelley 77, Myrtle Fulton 75, Bernice Dunham 73, Frederick Woodman 73, Aubrey Stager 68, Jessie White 60. Junior I: Hilda Love 80, Nelson Eamor 57.

Rapid progress is being made on the construction of the United Irrigation project near Cardston.

First Irishman—And so yer name is O'Hare. Are yez related to Patrick O'Hare? Second Ditto—Very dishtantly. I was me mother's first child and Patrick was the 13th.

Catching

Prisoner charged with check-raising said bootleg whisky make him see double.

"How long have you been in jail?" asked the judge.

"Ten days," said the court.

"I see double, too."

Wife: I wouldn't order any more, John, you've had enough.

John: Shay, m'dear! After bringing this jag all the way from Canada, I'm not going to quit now.—"Life."

True Love

He—"But it will have to be a long engagement."

She—"Dear, I'd wait for you until the soldiers get their bonus."

Defined

The visitor was examining the class. "Can any little boy tell me what a fish-net is made of?" he inquired.

"A lot of little holes tied together with strings," smiled the never-failing bright boy.

In the good old days girls learned to cook; you see they didn't have any mayonnaise dressing under which to hide their ignorance.

Further Instructions Needed

It is in the cemetery at South Bethlehem, Pennsylvania, by the way, that the sign appears: "Persons are prohibited from picking flowers from any but their own graves."

GENERAL NEWS

The town of Summerland was visited by a bad fire, which did \$70,000 worth of damage.

A. A. Ryan, a New York broker, is now a bankrupt. His liabilities amount to \$32,435,477 and assets \$1,000,000.

The Algoma Steel Corporation has secured a 48,000 ton rail order from the Canadian Pacific Railway. This means that the rail mill will be reopened immediately and put in full operation. The work will give employment to 2,000 men and will result in a general stimulation of business locally.

British Columbia will build a highway to the provincial boundary by the time Alberta reaches there, and the British Columbia Government is prepared to co-operate with Alberta in completing the "missing link" so that Canada may have a through automobile route from coast to coast.

Ocean borne lumber exports from British Columbia mainland for the first six months of the year show an increase of 21,737,745 feet over the same period last year. Shipments totalled: shingles 128,945,500, box shooks 164,948 bundles, lath 12,220 bundles, and lumber 94,552,742 feet.

Canada, which has produced better macaroni than Italy, may soon make better Dutch cheese than Holland, in the opinion of the Dominion Dairy Commissioner, who has returned from Holland with ideas and specifications for a new cheese which he believes Canadian dairies can produce with profit.

Exports of cattle from the Port of Montreal for the past two months have been larger than for the corresponding months of last year, there being 10,731 head shipped as against 6,648 head in 1921, showing an increase of 3,783. Out of the above total 7,328 head came to Montreal from the United States for shipment to England.

Tenders are being called for the superstructure of the new pier the Canadian Pacific Railway is constructing here for the accommodation of its ocean liners. The new work, which is the largest the Canadian Pacific has undertaken locally for some time, will give employment to several hundred men for approximately twelve months. The pier is to be 850 feet long and 330 feet wide, and is estimated to cost about \$2,000,000.

Deposits by the public in Canada contracted during May by \$29,000,000, and those of the Dominion Government by \$49,000,000. There was, however, an increase in deposits abroad of \$88,000,000, which may be accounted for by the proceeds of the recent \$100,000,000 loan not being at that time transferred to Canada. Partly for the same reason bank balances abroad showed an increase of \$64,000,000. Current loans in Canada were down by \$23,000,000, and note circulation by \$10,000,000, changes which indicate a certain amount of liquidation. The increase of \$10,000,000 in other assets is exceptional.

RYE HARVEST IS ON

Reports from all parts of the country are that, while rye is thin in places, the yield promises to measure up well with the amount of straw, says the Lethbridge Herald. The heavy rains in late June and early July resulted in heavy filling of the grain, and crops of 40 bushels or over will be reported. Some of the best fields are expected to go better than 50. It would not be at all surprising if the rye average reached 25 bushels. It is estimated that, of the 200,000 estimated acreage of rye sown, half was cut for feed. This leaves 100,000 acres allowed to ripen, so that the total rye crop of the south which will go through the thresher will approximate 2,500,000 bushels. The Winnipeg cash price for rye today is in the neighborhood of 82 cents, which will make the net price to the farmer here about 70 cents or a little less. The value of the crop will therefore be in the neighborhood of \$1,750,000, while rye has already harvested will be worth at least as much. Southern Alberta's first venture into rye as a crop is therefore considered fairly satisfactory, and much of it will continue to be sown, though less as a cash crop than as a means to spread the farm work, provide some fall pasture and assure hay for farm stock.

Railway News

Prescott.—On retiring on pension, after over 40 years in the service of the C.P.R., Edward Pumble was given a purse by his associates at Prescott.

Lindsay.—The park at the C.P.R. station was laid out a few years ago and is to-day a veritable bower of beauty. Rare taste and originality has been displayed in its upkeep, and the many who have admired it express regret that Lindsay has not a few more parks of this nature.

Vancouver.—The Canadian Pacific Railway Company is calling for tenders for the superstructure of the new pier which the company is constructing here for the accommodation of its ocean liners. The foundation fill for the pier is already in place. The new work will give employment to several hundred men for approximately 12 months. This is the largest work undertaken in several years in Vancouver by the Canadian Pacific Railway. The pier will be 850 feet long and 330 feet wide and its estimated cost is about \$2,000,000. It is proposed to have it completed by September 30, 1923. Tenders are to be in by July 17.

Fort William.—One of the finest mementoes of the recent visit to the head of the lakes and strict points of His Excellency the Governor General of Canada, Lord Byng of Vimy, and Lady Byng, is possessed by A. A. Smith, trainmaster, Canadian Pacific Railway, in the form of a gold and enamel scarf pin presented to him by the Governor-General. The gift was made to Mr. Smith as a token of appreciation of the splendid arrangements made by him for the comfort of the Governor-General's party during their railroad journey from Fort William to Kenora.

Montreal.—Mr. Alfred Price, General Manager, Eastern Lines, Canadian Pacific Railway, after over forty years of faithful and most efficient service, upon the advice of his physicians, and to the great regret of all, finds it necessary to relinquish his duties for an indefinite period. Mr. Price has, therefore, been granted extended leave of absence.

Mr. John J. Scully is appointed General Manager, Eastern Lines. Mr. George Hodge is appointed Assistant General Manager, Eastern Lines. Mr. W. M. Neal is appointed General Superintendent, Algoma District, succeeding Mr. Scully.

Galt.—Work is now being started on the construction of the new depot of the Lake Erie & Northern and Grand River railways on upper Main street.

The new station will be 35 feet wide and 75 feet long and will run parallel with the railway tracks. The foundation will be of concrete laid on the piles, while the building will be constructed of rug brick with stone trimmings. The roof will be of slate.

The waiting room will be in the centre of the building, with a ticket office looking out upon the railway tracks. The baggage room and office will be located at the north end and a smoking room and lavatory accommodation at the south end. The best of materials will be used and all the most modern ideas in station construction have been incorporated in the plans.

Chatham, Ont.—Saturday night officer Sinnott was patrolling Lacroix Street near the C.P.R. crossing when he noticed a number of children running out to the track to view trains passing. The children were getting a little close to the tracks, and Sinnott took their names and spoke to one of the parents, George Hardey, and advised him to keep his offspring away from the tracks.

Hardey didn't like this interference on the part of the officer and it is alleged that he proceeded to tell him so in language which is not used in the best of circles. It is also said that the enraged parent took off his coat and wanted to fight. An information has been laid against him and he will explain his action in the police court.

Fort William.—A. F. Hawkins, superintendent of terminals, Canadian Pacific Railway, received framed and autographed photographs of Lord and Lady Byng, as souvenirs of what they characterized as a very pleasant day spent at Savanne, a point a short distance west upon the Canadian Pacific Railway. A letter, written Superintendent Hawkins, read as follows:

"Their excellencies, the governor-general and Lady Byng, of Vimy, desire to express to you their warmest thanks for all the arrangements you made for their comfort and recreation at Savanne last Sunday. They had a most enjoyable trip on the lake in the motor boat provided, and feel greatly benefitted by the rest which they feel was largely due to your trouble. Everyone on the train is very grateful to you for what you have done.

"Their excellencies hope you will accept the photographs of themselves, which accompany this letter as a souvenir of what was to them a very pleasant day."
